Solving problems, Leadership

## EDUCATION

### PDP IT ACCADEMY

june 2020 - nov 2021

*Accademy in tashkent*

I learned online programming at PDP because I didn't have the money to go to Tashkent at the time, so I started an online course and it was very convenient for me. It seemed hard to start, but after a while I got used to it.

### INTERNATIONAL ENGLISH COURSE

Aug 2021 - May 2022

*learning center*

I studied up to B2 at that place and had to leave for some reason.

### HIGHT-SCHOOL

Sep 2010 - May 2021

*5, Andizhan*

I didn't study as well in school as the others because their orientation was very different from mine. During my school years, I realized that everyone has to choose the path they want, and now in schools, subjects that are not related to one child are taught, which takes extra time. I wish that all children should study in their own direction.

## WORK EXPERIENCE

### MEDIA-TECH LEARNING CENTER

dec 2021 - feb 2022

DEVELOPER

I didn't spend much time there and went to Andijan for several reasons had to. But the reason I really liked that place because there cheerful team and interesting projects, various ceremonies. I didn't have to stay long because I had to leave Tashkent, I am currently unemployed and working on various projects.

## CERTIFICATES

### PDP IT ACCADEMY

november 2021

Js, React

I received this certificate for successful completion.

### ONE MILLION UZBEK CODERS

october 2021
